

# Hosting Guide: Gathering with Adults (and older children)

Here is a guide to help you host another household in your home for Central at Home! We truly believe that God will meet with us when we gather together – it doesn't matter where we are and it doesn't matter how many people are there, God is with us! If you need some ideas, here is a rough guide.

## Top Tip!

- If possible use your TV to stream the gathering rather than a laptop or tablet, it's much easier for everyone to see and hear!

## Gather at 10.15am

- Why not have some food available or have coffee together!
- If you've got kids with you, make sure you've set up any activities they may need for later on

## Join in with CFO @ 10.30am

- If you've got kids (or if you're young at heart!) join in with Central Families Online at 10.30am

## Central at Home @ 11am

- Make sure kids are set up with activities so the adults can join in on the 11am Gathering together
- Try to actively engage together in worship and prayer – all it takes is one brave person to go for it!
- Don't rush off at the end, take time to pray for each other, or one person could say a prayer over everyone
- Finish up shortly after 12pm and make sure everyone feels permissioned to leave if they need to!
